

HEATHER CREEL

GTM Systems & Transformation Leader
Tennessee • Open to Remote

SUMMARY

GTM Systems and Transformation leader with 15+ years in B2B, including deep experience as a strategic architect and systems leader at enterprise scale. Served as primary solution architect for a net-new Salesforce org supporting 1,000+ users, owned a \$4M enterprise license strategy, and provided Salesforce best practices and solution design guidance across 16 instances globally. Brings technical fluency and business judgment in equal measure, able to assess architecture trade-offs, translate field needs into prioritized roadmaps, and align senior stakeholders before work enters the build queue. At Pantheon, self-initiated the highest-impact work: AI automation, multi-vendor security response, and a vendor evaluation framework that shaped major platform decisions. 15 certifications including 10 Salesforce credentials.

CORE COMPETENCIES

GTM Transformation Strategy & Roadmap • Business Architecture & Process Design • Executive Stakeholder Influence • CRM & Tech Stack Modernization • AI Innovation & GTM Automation • Requirements Governance & Intake Prioritization • Revenue Operations Strategy • Change Leadership & Adoption • Vendor Strategy & Evaluation • People Leadership & Team Development

EXPERIENCE

Pantheon Systems | Remote

11/2021 – Present

Sales Systems Director

01/2023 – Present

- Ran **six concurrent GTM program launches** in Q1 2026 (including CPQX/Zuora upgrade, Gong Engage migration, and AI chat agent); all delivered on schedule with zero business disruption.
- Served as incident commander for the GTM Systems response during a Salesforce security breach (Aug 2025); led remediation across **60 OAuth connection points** with zero business disruption through the 2-week crisis.
- Delivered **\$40K annual savings** through self-initiated Salesforce license optimization; redirected the funds to fund the Event Monitoring program without asking for new budget.
- Built and shipped a Claude + Jira integration that auto-handles helpdesk responses in Slack; **live in one sprint**, reducing team time on inbound support.
- Automated opportunity creation for every closed-won account, closing a renewal revenue gap and tightening forecast accuracy.
- Built career ladder, coverage model, and cross-training framework; kept the team intact through **8 organizational restructures (2021–2026)** with zero regrettable turnover through 2024.
- Improved Salesforce delivery operations: **30% increase in production deployments; 85% reduction in user access support tickets** via Okta automation.
- Represent GTM Systems in active vendor evaluations (CPQ replacement, CLM/Ironclad); bring technical implications and post-launch usage into the decision before contract.
- Established cross-functional alignment cadences with GTM Programs and Operations leaders; surfaced upcoming priorities upstream to prevent late-arriving urgent work from disrupting sprint capacity.

CRM Systems Manager

11/2021 – 01/2023

- Redesigned the Quote-to-Cash management process for a large Enterprise customer; delivered portfolio visibility and **10% improvement in pricing accuracy**.
- Established sprint and backlog methodology that moved cross-functional work from manual spreadsheets into CRM with supporting automation.

Wipro | Remote

04/2021 – 11/2021

Functional Solution Architect

04/2021 – 11/2021

- Led CRM discovery and solution design for a France-based enterprise client with development teams across Latin America and India; drove website improvements that increased customer usability.

Fleetcor (formerly Comdata) | Brentwood, TN

03/2014 – 03/2021

Senior IT Director, NAF

11/2019 – 03/2021

- Led creation of a new standardized Salesforce org; served as primary solution architect for subsequent service and sales migrations, including **~1,000 users**.
- Coordinated a global development team across the US, Russia, and Belarus to deliver the new Salesforce environment.

IT Enterprise CRM Director

03/2017 – 11/2019

- Managed **\$4M Salesforce enterprise license agreement** and global annual license projections; built processes for ongoing license optimization.
- Coached local Salesforce teams across **16 Salesforce instances globally**; facilitated cross-region collaboration on solution design and implementation patterns.
- Led regional initiatives including a digital website re-launch covering CRM configuration, dialer automation, and case management.

Sales Operations Leader

02/2015 – 03/2017

- Built a **Sales Ops team of 5 from the ground up**; established KPI tracking and agile story management practices.
- Partnered with the EVP and Sales Leaders on Sales Ops/Systems priorities for a **~140-person sales organization**.

Commercial Data Analyst

03/2014 – 02/2015

- Built Marketo/Pardot system integrations on the Demand Gen Initiative; **increased campaign success rates 20%**.
